# Welcome to Jekonmo

Jekonmo is more than a bottle on a shelf. It is connected to a long tradition of West African herbal knowledge, family routines, marketplace culture, and the everyday ways people care for energy, balance, vitality, and confidence.

## What Jekonmo Means

The name comes from the Yoruba phrase "Je ki a mo," often understood as "Let them know." It carries a spirit of announcement, confidence, and recognition.

## How To Understand It

Think of Jekonmo as a traditional herbal wellness product. It is not medicine, and it should not be used as a replacement for medical care.

## Vitality Snapshot

- Traditional focus: energy, warmth, stamina, circulation, and confidence.
- Product facts: non-alcoholic, 100ml bottle, sourced from Nigeria.
- Registration: NAFDAC No. A7-2929L.
- Best understood as part of an adult vitality routine, not a treatment product.

## The Confidence Factor

People may not always say it directly, but many customers want support for moments when they need to feel strong, awake, present, and fully themselves. Jekonmo's traditional positioning lives in that lane: vitality, stamina, warmth, energy flow, endurance, and confidence.

# Key Ingredients in Jekonmo

Below is a simple educational overview using compliance-safe traditional-use language.

## Kanafuru: Cloves

Traditionally appreciated for warmth, aromatic strength, vitality, and overall body stimulation.

## Atare: Alligator Pepper

A bold West African spice associated with warmth, circulation, and natural energy flow.

## Ewe Akintola: Leaf Blend

A traditional leaf component often understood as part of a balancing herbal preparation.

## Aidan: Prekese

Known in West African food and herbal culture, often associated with stamina and post-activity recovery.

## Agbo Base: Traditional Herbal Infusion Blend

Agbo reflects the West African practice of combining botanicals into a tonic-style preparation. Together, these ingredients give Jekonmo a warm, bold, stamina-oriented profile rooted in tradition.

# How Jekonmo Fits Into a Routine

Many customers approach Jekonmo as part of a daily or occasional vitality rhythm. The goal is simple: take care of your energy, stay balanced, and move through the day with confidence.

## How should I take Jekonmo?

Follow the current product label directions. Many customers use one 100ml bottle as a serving, depending on their routine and how much energy or stamina support they are looking for at the time. If you are new to Jekonmo, start thoughtfully and pay attention to how your body feels.

## Helpful Routine Notes

- Some customers prefer it in the morning, before a long day, after activity, or before moments when they want to feel energized, steady, and confident.
- Do not exceed the current label directions.
- If you take medication, are pregnant or nursing, or manage a health condition, speak with a qualified health professional before use.

### Storage Before Opening

Keep sealed. Store in a cool, dry place. Avoid direct sunlight and high heat. Always check label and date information.

### After Opening

Refrigerate after opening. Keep the cap closed tightly. Consume within 30 to 60 days. Do not use if the product looks, smells, or tastes unusual.

# Frequently Asked Questions

## Is Jekonmo for men?

Jekonmo is especially popular with men interested in vitality, stamina, energy flow, and confidence. It is best described as an adult traditional herbal wellness product.

## Does it support blood flow?

Jekonmo contains traditional botanicals associated with warmth, circulation, and natural energy flow. This describes traditional use only and does not make medical claims.

## Is it alcoholic?

No. Jekonmo Herbal Mixture is non-alcoholic. Each bottle is 100ml.

## Where is it sourced?

Jekonmo is manufactured and sourced in Nigeria and distributed in the United States by OASIS AFRICAN MARKET.
